

GET TO KNOW ME

Aimee Kozlowski Senior Human Resources Generalist

Years of Experience: I have over 30 years of human resources experience.

Industry Experience: I have worked in a variety of industries, staffing companies, manufacturing and engineering. All of the companies that I have worked for have been privately owned...no large corporate jobs for me.

Why do you love what you do? I always told my dad that I wanted to change the face of HR. I never wanted anyone to 'dread' talking to me. I love being a resource for employers and employees. HR consulting gives me an opportunity to work with clients to reach their strategic goals, as painlessly as possible.

Laughter is definitely the best remedy for most things. I enjoy boating on the weekends and spending time with friends. When I am not on the water, my home away from home is Key West-I travel there several times a year. I also am meticulous about my lawn and gardens (favorite thing to say....look at those lines (in the lawn)). I am very lucky to have the life I have (and have built). Living on a lake has brought me peace; waking up every morning and seeing the water is calming. I love spending time with my family and friends and especially hosting at my house. If I do venture out, it's to go a nice restaurant, have a great bottle of wine and a filet mignon.
