

GET TO KNOW ME

Nicki Connell Bookkeeper

Began professionally in... 2015

Educational Background: In 2015 I received my Master's degree in Accounting/Finance.

Why do you love what you do? I love what I do because I like being organized and making sure things are taken care of so that nobody has to worry about them.

Why you would contact me: W-9 Requests, Billing and Invoicing questions, additional invoice substantiation requests. The best way to reach me is by email at nconnell@bluelionllc.com.

I am a full time stay at home Mom, so this position offers me the flexibility I need to take care of my little's and still stay connected to the workforce and what I love, numbers! My three little ones keep me on my toes constantly, whether it be their constant hunger or need to just run around and play, I'm there for it! I love spending time with my husband; he's my peace in the midst of the chaos! We also have a bunch of ducks and chickens that bring a lot of fun and chaos to the mix. Never a dull or boring moment at my house, that's for sure!
