GET TO KNOW ME

Grace Cha

Senior Human Resources Generalist

Years of Experience: I have 15+ years of HR and Operations experience.

Industry Experience: My background is in multi-state HR operations in hospitality, finance, education, and manufacturing, ranging from startups to global companies. I specialized in partnering with the Federal Aviation Administration and state police for 10+ years while working in international airports. Compliance is one of my areas of expertise, but it's just as important to be flexible and creative to achieve the best results. Most importantly, I believe life experience is the best teacher of all.

Why do you love what you do?

I learn and solve problems with clients based on their needs, goals, and business models. No individual or organization is the same, and it's valuable to know this. I see if anything can be done better or differently while having it make sense.

I love animals and children because they tell you like it is, and there is wisdom there. In my free time, I volunteer at my local animal shelter and mentor grade school students who don't have family support. I think it's important to never forget what it's like to be a kid.
