

GET TO KNOW ME

Marissa DeAngelis Sr. HR Generalist

Years of Experience: 6 years of professional experience in the Human Resources Generalist space with a focus on employee relations, HR program management, and strategic HR initiatives.

Industry Experience: I began my career in recruiting, where I worked closely with HR professionals and quickly discovered my passion for the field. Since then, I've built experience in HR program management, full-cycle recruitment, employee relations and strategic planning. I'm driven by a desire to improve both employee and employer experiences.

Why do you love what you do? I love inspiring and supporting others in reaching their full potential - whether that's helping them grow, make meaningful progress, or achieve their goals. There's something incredibly rewarding about collective success; accomplishing something as a team means more to me than individual wins.

Born and raised in the Northeast, I've always valued hard work and balance. Outside of work, you'll find me enjoying the outdoors, spending time with friends, family (pets included!), or planning my next travel adventure. I'm passionate about collaborative, results-driven work and take pride in creating environments where people feel supported, engaged, and empowered to thrive.
